ACKNOWLEDGEMENTS

First and foremost, I would like to express my deepest gratitude to our Lord above for guiding and giving me strength, wisdom and patience throughout my On-the-Job Training, enabling me to fulfill my duties and responsibility in the company.

I would also like to extend my heartfelt appreciation at 8Con Academy for giving me the opportunity to be part of their team. My sincere thanks to my supervisor, Mayette L. Francisco, Ed. D, for her invaluable guidance, feedback and encouragement during my training. I also would like to extend my gratitude to the president of 8Con Academy, Sir Jim Francisco, for sharing valuable lessons in both FOREX trading and life that will surely guide me to the path that I am headed.

To my fellow trainees, specially the batch 1, at 8Con Academy, thank you for your warm welcome, support and for sharing your knowledge and expertise with me which greatly contributed to my personal and professional growth.

I am also deeply grateful to my OJT Coordinator / instructor, Joseph Bernard Reyes, DEM, at College of Mary Immaculate of Pandi, Bulacan Inc., whose guidance and preparation helped me gain the skills necessary to succeed during my training.

Lastly, I would like to express my deepest appreciation to my girlfriend, Allyana Marie Sarmiento, for her unwavering support, understanding, and encouragement throughout my On-the-Job Training. Your patience, motivation and constant reassurance inspired me to keep going and do my best every single day.

I. ABSTRACT

This highlights my On-the-Job Training (OJT) experience at 8Con Academy, where I was assigned as the Team Leader of both IT and Marketing department from April 28, 2025 to June 09, 2025. It showcases the skills, projects, and accomplishments I gained throughout my training, demonstrating my ability to apply my academic knowledge in a professional setting.

This portfolio compiles essential documents including the Memorandum of Agreement (MOA), endorsement letter, letter of intent, previous resume, daily journal, daily time record (DTR), certificate of completion (COC), updated resume, and the sample application letter to be submitted it contains my narrative experience and a concluding reflection on the knowledge and skills I gained during the training.

These materials, along with documentation of my daily tasks, key projects, skills developed, and personal reflections on challenges and successes collectively demonstrate my professional growth, strengthened work ethic, improved communication and teamwork skills, and ability to adapt to a dynamic workplace environment.

Overall, this portfolio serves not only as an academic requirement but also as clear evidence of my development and preparedness for future opportunities in the professional world.

II. MEMORANDUM OF AGREEMENT

MEMORANDUM OF AGREEMENT

This MEMORANDUM OF AGREEMENT, made and entered into in NORZAGARAY, BULACAN, Philippines, this JUN 15 2025, 2025 by and among:

8Con Academy, a corporation duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with address at 933 ABZ Blg., Brgy. Calvario, Mc Arthur Highway, Mecauyan, Bulacan, represented by Mayette Lopez-Francisco, Ed D, Head of Education, hereinafter referred to as FIRST PARTY;

- and -

COLLEGE OF MARY IMMACULATE OF PANI, BULACAN, INC., a private non-sectarian school with postal address at JP Rizal Street, Poblacion, Pandi, Bulacan, Philippines, a duly recognized institution by the Commission on Higher Education, represented by **PIA MARIE S. ANDRES-KHAN, PhD** - President, hereinafter referred to as SECOND PARTY;

WITNESSETH:

WHEREAS, the SECOND PARTY, as part of the requirements of its BS Computer Science Curricular Program, and after adequate preparation of the students' knowledge, skills and attitude through classroom instruction, requires **240 hours** of On-the-Job Training for its students;

WHEREAS, the FIRST PARTY possesses the facilities and trainors to effectively prepare the BS Computer Science Students into the world of work, and hereby agrees and allows the On-the-Job Training of officially enrolled BS Computer Science students of the SECOND PARTY;

WHEREAS, the FIRST PARTY agrees and is willing to train the BS Computer Science Students and finish the required number of hours of On-the-Job Training;

NOW THEREFORE, for and in consideration of the foregoing promises, covenants and stipulations, the parties do hereby agree and bind themselves as follows:

1. The term of this Memorandum of Agreement is from **April 2025 to April 2026**.
2. The FIRST PARTY will conduct an Orientation of the Institution's Policies, Rules and Regulations at the beginning of the Training Program, and the SECOND PARTY and BS Computer Science Students agree to abide by such Policies, Rules and Regulations.
3. The FIRST PARTY will provide a variety of assignments and rotation of tasks to the BS Computer Science Students, to be conducted virtually/online, the nature of which aims to achieve the goals of the On-the-Job Training Program and focuses on actual computer/information technology/corporate systems, practices, processes and procedures.
4. The SECOND PARTY will assign a Practicum Coordinator to monitor student performance throughout the duration of the On-the-Job Training period.
5. The FIRST PARTY agrees to appoint an Immediate Supervisor/Training Officer for the students. The Immediate Supervisor/ Training Officer shall:
 - a. Work closely with, supervise, and train the BS Computer Science Students in order to develop and fulfill the performance objectives of the On-the-Job Training Program;

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

- b. Discuss the progress of the students to the Practicum Coordinator of the SECOND PARTY in the middle and at the end of the On-the-Job Training period;
 - c. Conduct an evaluation of the students' performance at the end of the On-the-Job Training period; and,
 - d. Provide a Certificate of Completion at the end of the On-the-Job training period;
6. This Memorandum of Agreement is non-exclusive, and as such, the FIRST PARTY is under no obligation to accept students exclusively from the SECOND PARTY.

IN WITNESS WHEREOF, the parties hereto have signed this contract in **NORZAGARAY, BULACAN**, Philippines, this JUNday of 16 2025.

Bcon Academy

Dear Sir/Madam:

The College of Mary Immaculate, an educational institution located at Poblacion, Pandi, Bulacan, is envisioned to become a center of excellence in this town. We are committed to bring forth into the world graduates at their best—young men and women who love life, who are happy, and who are free.

One of the program offerings of the College of Mary Immaculate is the Bachelor of Science in Computer Science Course. A requirement for the graduation of the course is for the students to undergo **240 hours** of practicum that will provide them the opportunity to observe and experience computer, business and management operations. Such an immersion of the students in the business industry will sharpen their insights on how principles and theories they learned in school are made operational in the business industry setting.

In this regard, we would like to express our desire to have our students trained in your company. We are confident that through your office and your dedicated staff, our students will be more equipped in their chosen career and will become the future professionals our province of Bulacan can be proud of. We are certain that they will benefit a lot from your company and will be better prepared for employment after graduation.

Thank you very much and we are looking forward to your positive response.

Meycauayan, Bulacan

Dear Dr. Francisco,

I hope this letter finds you well. I am writing to formally express my intent to undergo On-the-Job Training (OJT) at 8Con Academy. I am a student of Bachelor of Science in Computer Science at College of Mary Immaculate of Pandi, Bulacan Inc. and I am honored to have been accepted for training in your esteemed organization. I understand and acknowledge the responsibilities that come with this opportunity and I am fully committed to adhering to your institution's policies, guidelines, and expectations throughout the duration of my training. I believe this experience will greatly contribute to both my academic development and personal growth.

Thank you very much for this opportunity. I look forward to learning for your team and contributing positively in any way I can.

Respectfully yours,

Michael Alexis Ponce

VI. DAILY JOURNAL

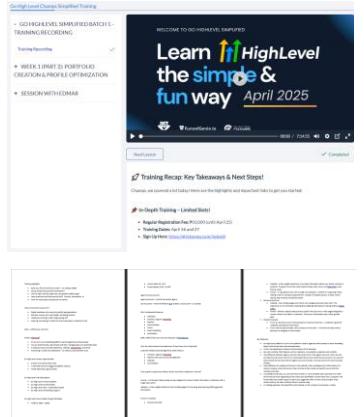

OJT JOURNAL

WEEK 1

Student Name: Michael Alexis Ponce

Year and Course: 3 BSCS

Company: 8Con Academy

Date	Specific Task	Challenges	Learnings	Documentation
Apr. 28, 2025 (MON)	Creation of Team Name	One major challenge was unleashing how creative our minds could be since the task was naming the team in a creative way. It was difficult because creativity can be subjective, and we wanted a name that was not only unique and catchy but also reflected our team's identity and purpose.	I learned the importance of collaboration and the value of different perspectives in the process. I also realized that creativity isn't just about having unique ideas but it's about listening, refining and building each other's input.	
Apr. 29, 2025 (TUE)	Watch GHL Videos and Taking Notes	The major challenge in this task was the time to watch the video training, as the total duration was around 7 hours. Sitting through such a long training session in one go was mentally exhausting. It required a lot of	I learned the importance of pacing myself and time management when tackling long tasks. Dividing large content into manageable portions improved my retention but also helped me stay focused and consistent without	
Apr. 30, 2025 (WED)				

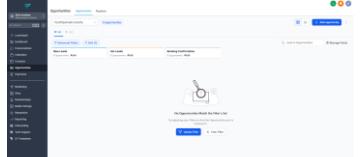

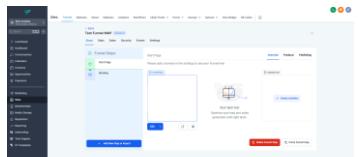

COLLEGE OF MARY IMMACULATE

<https://www.collegeofmaryimmaculate.edu.ph>

		<p>focus and discipline to stay engaged throughout. To manage this, I broke the video into shorter sections and spread it out over several days. This allowed me to absorb the content more effectively and avoid burnout.</p>	<p>feeling overwhelmed.</p>	
May 02, 2025 (FRI)	Funnel Hands-On Experience	<p>One major challenge on this task was applying the theoretical knowledge we gained during the video training into the platform. While the training provides clear and detailed explanations, translating that information into actual steps on the platform required extra effort and critical thinking. Some features looked different in practice, and there were moments of trial and error as we navigated the tools.</p>	<p>While doing this task, I learned that understanding theoretical concepts is the first step. True learning happens when you apply that knowledge in the real-world setting. It taught me the importance of hands-on practice, patience, and problem-solving when working with new platforms or tools.</p>	   

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

May 03, 2025 (SAT)	Workshop	<p>As someone new to the workshop, my main challenge was ensuring the smooth transition of the presentation. Since I was still learning, I had Kuya Ken by my side guiding me through the process. While the task itself seemed pretty straightforward, I had to quickly adapt to managing the timing and technical aspects to avoid delays.</p>	<p>This experience taught me the importance and value of mentorship and how critical it is to rely on someone's guidance when learning new tasks. It also helped me understand the value of preparation and staying calm under pressure to ensure everything runs smoothly.</p>	 A group photograph of approximately 25 people, mostly young adults, posed in two rows. They are dressed in casual attire, including shirts, pants, and jackets. Some individuals are wearing name tags or lanyards. The background shows shelves with books and some banners or signs, one of which partially reads "BCON".

WEEK 2

Student Name: Michael Alexis Ponce

Year and Course: 3 BSCS

Company: 8Con Academy

Date	Specific Task	Challenges	Learnings	Documentation
May 05, 2025 (MON)	GHL Platform Familiarization	One of the major challenges for this task was applying our knowledge from funnelfy to GHL platform. Some features were not available in funnelfy but available in GHL, for example is the workflows and forms builder. Those features were only tested in these days and since we are new to the features we find it difficult at first and we referred to our notes during the video training.	I learned that taking notes extends your learning retention. Once you read it again you remember how you do it from the first that you encounter the situation that you became confused and don't know what to do. It's like retracing your steps, and each time you do, the path became clearer. Over time, this habit strengthens not just your memory but your confidence.	
May 06, 2025 (TUE)				
May 07, 2025 (WED)				
May 08, 2025 (THU)	GHL Funnel Site Activity (Front-End)	During the building of the imitated funnel site, I encountered some problems on editing the properties of certain elements in the funnel builder.	I learned that organizing work and dividing task clearly in a collaborative process makes the process more manageable and less

OJT JOURNAL

WEEK 5

Student Name: Michael Alexis Ponce

Year and Course: 3 BSCS

Company: 8Con Academy

Date	Specific Task	Challenges	Learnings	Documentation
May 26, 2025 (MON)	-> Created the weekly report progress of the enrollment system and assigned tasks for further development of the enrollment system	The major challenges that I face in this task are gathering accurate progress data, coordinating with the team members and time management. I had a hard time collecting all the progress data during the development of the project. Handling such a big team overwhelmed me especially when I needed to know the progress of the project.	Even though I feel overwhelmed handling such a big team, I learned that I am capable of adapting and growing when placed in a position of responsibility. This experience taught me that leadership is not about having all the answers but about creating a space where collaboration and accountability thrive.	<p>May 23, 2025</p> <p>8Con Academy - Student Enrollment & Tracking System (EASTS)</p> <p>This report outlines the progress report of the student enrollment and tracking system from May 19, 2025 to May 20, 2025. The goal is to track tasks, ongoing work, issues encountered, and upcoming tasks.</p> <p>Since May 19, 2025, the back-end and the front-end developers worked hand-in-hand to finish the initial design of the system. The back-end was developed using Node.js and MySQL. The design was taking shape based on the company's branding thanks to the front-end developers. On the other hand, the back-end developers further add and improve some methods for fetching the data from the database.</p> <p>The ConCatinate team is currently working on further improvements for the front-end design. While the front-end team works side-by-side with the ConCat team to include missing functionality.</p> <p>During this week, the whole development team faced several issues and challenges. First, the front-end implementation has visual errors that don't align with the design. This issue was resolved by reworking the CSS code and making sure that the front-end team follows the established CSS. They used global controls of the elements instead of creating its specific design. Second, the team faced issues with the back-end database. Some changes were made before developing the new features and methods. Lastly, some team members experienced burnouts throughout this development week. To address these issues, I limit their tasks to two per day and encourage them to take breaks and rest.</p> <p>In the next development week, the team will aim to test the working functions and further resolve bugs and errors that the team will encounter. The team will be expected to finish this system in the next development cycle.</p> <p>To conclude, the project is still progressing but when issues, bugs and errors arise, the development team will hold and resolve it first before progressing any further in the development of the system.</p> <p>Prepared by: _____</p> <p>Reviewed by: _____</p>
May 27, 2025 (TUE)	-> Assigned to be the guide of AC and Jillian for the Sales Funnel Development -> Orientation	-> Since AC and Jillian are already familiar with the platform of GHL making the sales funnel site is much easier for them. The	In this both situation I apply my knowledge on time management and public speaking strategies to overcome fear and nervousness. I learned

Patience is the key to achieve and know what and where the errors are. By not giving up and trying over and over again, I encountered some errors that I never seen before and I'm not familiar with but having patience and determination to solve a particular problem, I gained experience and	

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

		<p>bigger and bigger and harder to check and find errors and bugs. After I found some errors and bugs, I assign a team member to fix it and make it work.</p>	<p>knowledge on how to solve errors lying inside the codebase.</p>	
May 29, 2025 (THU)	<p>Distribution of the following tasks:</p> <ul style="list-style-type: none">-> Event Engagement & Lead Template-> Tickmill Social Trading Strategy Provider Presentation-> Tickmill Social Trading Follower Presentation-> Poster Design - Live Market Updates	<p>Since I encounter such numerous tasks before, during these days I get a grip on how to distribute the tasks to the team members efficiently and effectively. I know who can do the specific task with such a notable performance. At first, I feel overwhelmed but applying the experience I gained in past weeks, I can confidently say that I distributed the assigned tasks to each team members effectively.</p>	<p>I learned that applying your knowledge in a particular situation helps you maintain composure and have clarity in your mind. When your mind is calm and know what the next step is, the tasks will work as you plan. In addition, it allows you to make better decisions, especially when unexpected issues arise. Instead of panicking or feeling stuck, you rely on what you've learned and experienced to guide your actions forward.</p>	

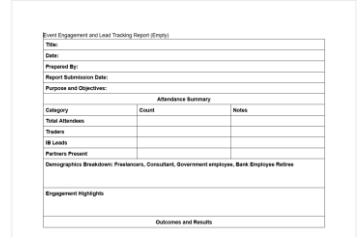

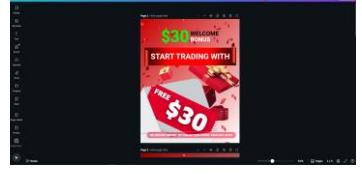

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

May 30, 2025 (FRI)	Progress checking for the tasks given on May 29, 2025	<p>Since the tasks are distributed to each team members yesterday, the challenge that I face during this is that I have to communicate to them what the progress of the tasks are but I need timing before I ask the progress of the tasks are. I need to see if they want to be talked before I proceed to asking the progress is. Some team members are done with the tasks and others are still in progress on the tasks.</p>	<p>I learned today that checking on one's progress is essential not only for tracking how far you've come, but also for identifying areas that need improvement. It provides a clear picture of what has been accomplished and what still needs attention. This habit of regular reflection helps prevent small issues from turning into larger problems, as it encourages timely adjustments and better decision-making.</p>	  
May 31, 2025 (SAT)	Workshop	<p>The challenge that I face in this day is passing my knowledge to Jhames on how to handle the multimedia part of the workshop. I passed my knowledge that I gained from Kuya</p>	<p>I learned that sharing one's experience to other will help them improve and grow. Speaking of improve and grow Sir Jas drop by and share his experience on the IT fields. He talks about mediocrity and I really learned a lot from him.</p>	 

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan
(044) 769.2021
<https://www.collegeofmaryimmaculate.edu.ph>

		<p>Ken on how to operate the multimedia part of the workshop. It also serves as a little turnover of tasks to Jhames in order for him to get a grip on how does multimedia part of the workshop works and operate.</p>	<p>The words that really strike me are "<i>Hindi pwede ang pwede na</i>". He's right, as a soon to be professional in field of IT, I need to give my best to stand out and have an impact to the industry.</p>

OJT JOURNAL

WEEK 6

Student Name: Michael Alexis Ponce

Year and Course: 3 BSCS

Company: 8Con Academy

Date	Specific Task	Challenges	Learnings	Documentation
Jun. 02, 2025 (MON)	Turnover of Funnel Site development in GoHighLevel and other functions of GoHighLevel	During this day, there are no challenge that I encounter since it was a turnover activity task. Maybe some questions asked about the platform itself did leave a mark but since Kuya Emjhai's turnover was okay, the questions asked by the batch 3 was answered correctly.	I learned that having smooth transition/turnover of activities will help others grasp how the activity will flow and how they can prepare themselves for that particular activity or task. When transitions are clearly communicated and well-organized, it minimizes confusion and uncertainty, allowing everyone involved to stay aligned and focused.	
Jun. 03, 2025 (TUE)	Turnover of workshop planning	I encountered minimal challenges on this day since it was a turnover activity task. With the help of Anthony and Francise, the turnover task for workshop planning	Today, I learned the importance of collaborative handover and how it contributes to a smooth and effective transition of responsibilities. I learned that when	

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

		<p>was smooth and well-coordinated. Their cooperation and willingness to guide me through the remaining details made the transition efficient and stress-free.</p>	<p>tasks are handed over with clarity, support, and proper guidance, it not only reduces stress but also builds confidence in taking on new responsibilities.</p>	
Jun. 04, 2025 (WED)	Turnover of enrollment system development	<p>Since I was the project manager of the enrollment system, this turnover activity makes me nervous. There are still a lot of areas that need improvement and bugs that have not yet appeared but could potentially surface later on. And yet, I am turning it over to the next batch of OJTs. I feel bad that our team did not finish it on time, primarily due to the limited timeframe we had for implementation.</p>	<p>I learn from this experience is the importance of responsible leadership and acceptance of project limitations. As a project manager, I realized that it's not always about completing everything perfectly or on time, it's about how well you manage transitions, how honestly you assess the current state of the project, and how effectively you prepare the next team to continue the work.</p>	 

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan

(044) 769.2021

<https://www.collegeofmaryimmaculate.edu.ph>

Jun. 05, 2025 (THU)	Demo of enrollment system	<p>The challenge that I faced on this day was the number of areas that needed to be improved. During the demo, it became clear that while the core functionalities were in place, there were still several parts that needs refinement, such as user interface consistency, input validation, error handling, and logging actions. These issues became more noticeable when the system was being presented to others, as fresh eyes quickly spotted areas of confusion that we had become used to during development.</p>	<p>From this experience, I learned the importance of preparation, adaptability, and transparency when presenting a project, especially one that is still under development.</p> <p>Demonstrating the enrollment system helped me realize that a demo is not just about showcasing what works, it's also about identifying what doesn't. It's a valuable opportunity to gather real-time feedback that can improve the system moving forward.</p>	
Jun. 07, 2025 (SAT)	Workshop	<p>Since this is our last workshop as OJTs, Anthony, Francise and I agreed to let the batch 3 handle the workshop all by</p>	<p>From this experience, I learned the value of trusting others and letting go of control when the time is right. As this was our last</p>

WORK EXPERIENCE

8Con Academy

Meycauayan, Bulacan

IT Intern (Team Leader) / Marketing Intern (Team Leader) *Apr, 2025 – Jun. 2025*

- Lead the team of 14 developers in delivering high-quality web-based enrollment system.
- Oversaw the development progress, conducted code reviews, and ensured adherence to project timelines and quality standard.
- Assigned tasks to each team member based on skill sets and project priorities, ensuring balanced workloads and accountability.
- Coordinated with stakeholders to gather system requirements and provide technical recommendations.
- Supervised a marketing team of 9 members, providing guidance on branding, customer engagement and promotional activities.
- Fostered collaboration between the IT and Marketing teams to align technical development with promotional goals.
- Reported progress and outcomes to immediate supervisor, highlighting key achievements and improvement opportunities.

PROJECTS

Enrollment System

Meycauayan, Bulacan

System Manager

May 2025 – Jun. 2025

- Assigned and monitored tasks among developers and testers to meet project deadlines.
- Supervised maintenance activities and addressed bug reports to ensure continuous system reliability.
- Designed and integrated REST API for CRUD operations and designed the front-end as a Single Page Application (SPA) and built under Node.js environment.

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan
(044) 769.2021
<https://www.collegeofmaryimmaculate.edu.ph>

Lotto Dash

Pandi, Bulacan

Lead Programmer

Feb. 2025 – Apr. 2025

- Developed a web-based application simulating a lotto game with real-time updates using Socket.IO for live distribution of bets, winnings and draw schedules.
- Designed and integrated REST API for CRUD operations, designed the front-end as a Single Page Application (SPA) and built under Node.js environment.

Minicell Apparel

Pandi, Bulacan

Lead Programmer

Sep. 2024 – Nov. 2024

- Developed a web-based E-Commerce platform using PHP programming language and implemented Model-View-Controller (MVC) architecture.
- Implemented core features such as user authentication, shopping cart functionality, product listing, product monitoring and other administrative tasks.

EDUCATION

College of Mary Immaculate of Pandi, Bulacan Inc.

Pandi, Bulacan

Bachelor of Science in Computer Science

Expected Graduation, May 2026

- **Related Coursework:** Data Structures, Object-Oriented Programming, Analysis of Algorithms, Applications Development, Parallel & Distributed Systems

LEADERSHIP

College of Mary Immaculate Computer Science Society

Pandi, Bulacan

President

Jun. 2025 – Current

- Oversee planning of student events, technical workshops, and academic support activities for BSCS students.
- Manage organizational budgets, project timelines, and conflict resolution to maintain smooth operations.

Vice President

Aug. 2024 – Jun. 2025

- Support the president and organizational leadership while helping set goals and ensure efficient task completion.
- Lead and coordinate meetings, and represent the organization at events and external meetings.

COLLEGE OF MARY IMMACULATE

JP Rizal St., Poblacion, Pandi, Bulacan
(044) 769.2021
<https://www.collegeofmaryimmaculate.edu.ph>

- Assist in planning and executing programs, events, and activities to engage and involve members.

SKILLS

Programming: Python, JavaScript, C++, HTML, CSS, Node.js, PHP

Platforms: Linux, Windows

Languages: English, Filipino

Interests: Volleyball, Video games

X. APPLICATION LETTER

Michael Alexis Ponce

Pandi Residences 1, Mapulang Lupa

Pandi, Bulacan

michaelalexisponce15@gmail.com

(+63)-9611127743

June 3, 2025

Dr. Mayette L. Francisco, Ed.D

Head of Education

933 ABZ Building, Brgy. Calvario, MacArthur Highway

Meycauayan, Bulacan

Dear Dr. Francisco,

I am writing to express my interest in a Software Developer position at 8Con Academy. As a soon-to-be graduate of the Bachelor of Science in Computer Science at the College of Mary Immaculate, I am eager to apply my skills and practical experience in a professional environment.

During my on-the-job training as an IT Intern and Marketing Intern Team Leader, I successfully led a team of 14 developers in delivering a web-based enrollment system. I also supervised a marketing team of 9 members, coordinating with promotional activities and aligning branding strategies with technical initiatives. These experiences developed my skills in leadership, project management, and cross-functional collaboration.

Furthermore, serving as the current President of our Computer Science Department has honed my organizational, communication, and problem-solving skills. I am confident that these abilities will allow me to contribute effectively to your team and adapt to the demands of a dynamic work environment.

I am excited about the opportunity to join 8Con Academy and help drive innovation through technology. I would welcome the chance to further discuss how my background aligns with your company's goal. Thank you for considering my application.

Sincerely yours,

Michael Alexis Ponce

College of Mary Immaculate of Pandi, Bulacan Inc.

XI. PROJECTS

1. 8CON EASTS

- Designed and develop a prototype for an onsite enrollment system aimed at streamlining student management and course management for 8Con Academy.
- Served as the project manager, overseeing the entire development process, assigning tasks, ensuring milestones were met, and actively contributing to the planning and testing phases.
- The technologies used in this project are HTML, CSS, JavaScript for front-end and Node.js for back-end.
- The features implemented includes student data entry, user authentication, competency assessment, and filtering the records of the student. These features are in the initial plan for the development.
- We successfully presented the early prototype to the president of the company for initial feedback, laying groundwork for further improvements of the system and potential scaling development.
- Managing this project enhanced my leadership, planning, and collaboration skills while giving me practical exposure to coordinating a web-based software development effort.

2. 8CON EDGE

- Participated in the initial planning and requirements gathering for the 8CON EDGE, a project aimed to help data driven forex traders to gain insights based on forex market.
- Contributed to brainstorming features, establishing timelines, and identifying potential challenges for future development.
- Gained knowledge in project scoping, team communication and requirements documentation.

3. 8CON Sales Funnel Development

- Contributed to the development of a sales funnel system designed to improve lead management and conversion processes for 8Con Academy.

XI. NARRATIVE EXPERIENCE

During the duration of my On-the-Job Training at 8Con Academy, I encountered the diverse atmosphere of the business industry. There are a lot of differences from perspectives down to different values of each person. It's a beautiful scene to experience and be exposed to. I gain a lot of new knowledge and perspective by just simply being around them, socializing and exchanging knowledge with them. Those knowledge I have gained, I will use it to further improve my personal and professional growth.

On week first of my training, I was a bit culture shock since I only experienced the academic setting and atmosphere. It was very different in the business setting, you need to look and act like a professional. This experience taught me to act and look professionally and I am glad that I have the opportunity to experience this because it is a life long asset that can help me grow in both personal and professional aspect.

During the second week, I am getting a grasp to the operation of the company. I adapt myself to the work environment to ensure that I can contribute to the team that I was assigned in. The given tasks on this week are building the sales funnel for the company. Building a sales funnel site is easy because its concept comes from website builders. These builders allow the developer to drag and drop certain elements into the page and edit it, no need to code the elements one by one. In addition to that, the funnel sites can track where the user frequently stays, how much time they spent on the page and if they are engaged to the funnel sites. All those functionalities are available in the platform named GoHighLevel (GHL). Also, based on our training, GHL developers are in-demand on foreign market with low competitions. I am grateful that the company gave me the opportunity to experience and handle such in-demand platform.

The third week is the start of the primary project, the 8Con Easts. It is an enrollment system that can manage forex student's data. During this week my team is focused on creating a mock-up design for the enrollment system. They used Figma as their platform for creating the initial mock-up for the system. In addition to that, I assigned the back-end team to create basic functionalities for the system such as create, read, update, and delete (CRUD) operations for the system. The initial timeline for the system was six months. This also includes the deployment of the system to the internet but since it is out of reach of the training, I suggest that the team will make it

on-site and we will make the core functionalities for the system. This system was so overwhelming to me given the fact that I am the team leader / project manager. Assigning tasks for each team member equally overwhelms me but I did my best to assign the tasks to ensure the system's functionality will be done on a timely manner.

The fourth week was the hardest week in my training. Since the first batch of OJTs part their ways with the company, their pending tasks were assigned to us, the second batch, and it was very overwhelming. We were currently developing a system and we also need to do the pending tasks of the first batch but everything goes as smoothly by using time management and prioritizing urgent tasks to ensure the output will be delivered on a timely manner.

Fifth week, the third batch of OJTs arrived, they are from Pambahayng Dalubhasaan ng Marilao (PDM). They are also computer science students. During this week, orientation about operations of the company was conducted such as funnel building, task organization, task assignments, weekly reports and system development. In addition to that, their energy makes the work place even more lively. They are full of energy and ready to contribute to the whole team. Also, during this week, the team conducted various test on the enrollment system to ensure the quality of the system are met based on the requirements.

Sixth week, the final week. During this week, the team conducted various turnover to tasks whether it is a part of marketing department or IT department. The team also presents the working prototype of the enrollment system to the president of the company, Sir Jim Francisco. During this demonstration, revisions and improvements was noted based on preference of our president. Those improvements and revisions, the PDM OJTs were assigned to implement those improvements and revisions.

XII. CONCLUSION

To conclude and summarize my internship experience at 8Con Academy, I can describe it in one word, wonderful. This experience thought me the importance of work and life balance, time management, communication, and leadership. I also gained a lot of knowledge from the people that I interact with. Their perspective on work and life helped me grow in both professional and personal. Although, I didn't expect the work environment to be like this. I thought, I will work eight hours straight not questions asked, but 8Con Academy was different. The atmosphere is very friendly and lively. As long as you were done with your tasks, you can take a break at the pantry or grab some snacks in the nearby stores. In addition to that, you can freely engage in communication with other OJTs. You can socialize, communicate and brainstorm with them. Lastly, leadership. 8Con thought me be a good leader. It thought me to take accountability for every action and decision that I make.

I am very thankful to 8Con Academy to have this kind of experience. This experience will be embedded to my personality and looking back in the future, I achieved this because 8Con Academy was there, helping me grow and teaching me valuable lessons that will contribute to who I am today.
